CAMP

July 9 - 21, 2017

U.C. Santa Barbara Campus

* Currently Grade 9 - 11

* Interested in a STEM Field

Join us for this 2 week residential program where you will build and program VEX Robots, meet current professionals in the STEM field, and network with other like minded students. Field trips to museums and a Coding Camp are also part of this camp. Students will also learn about how to apply for a STEM major at various UC, CSU, Community College, and Private School campuses.
